

Camera setting

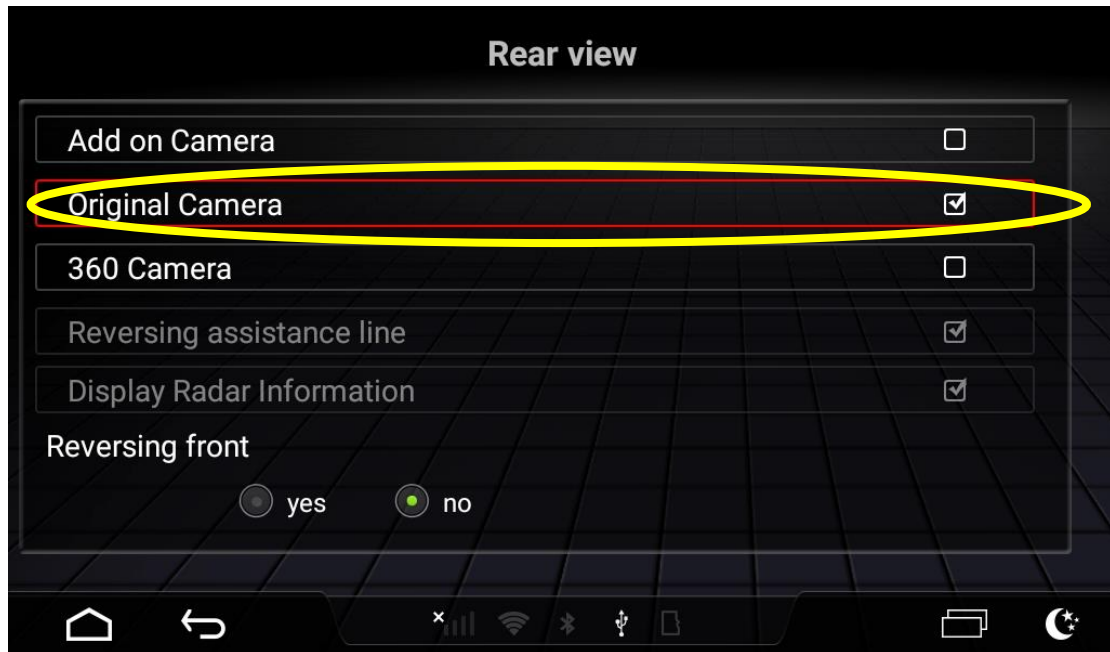

After power the unit, please check the home menu/Set

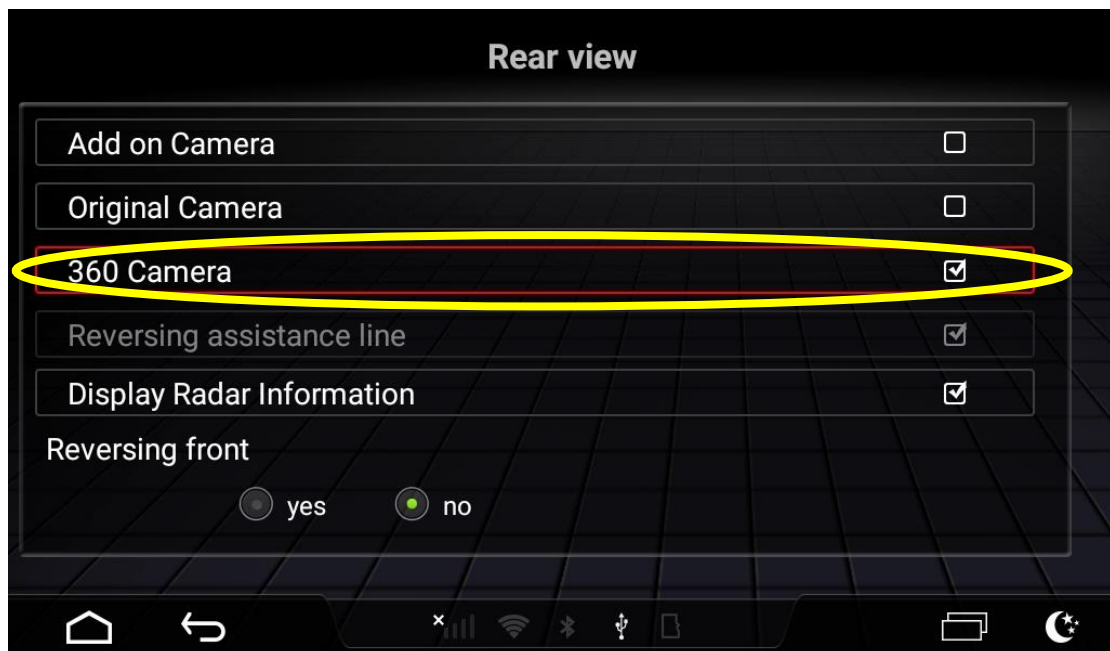

Rear view

If your car has factory backup camera or not install any aftermarket cameras, please select "Original Camera"

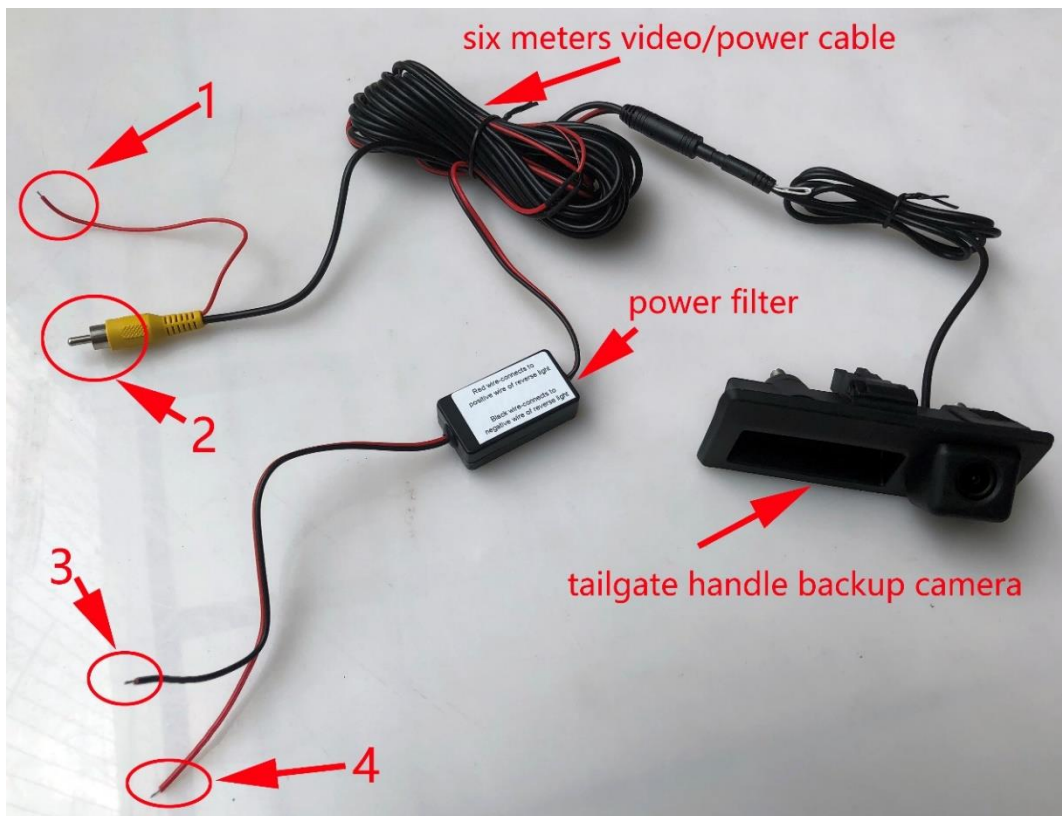

If you install aftermarket backup camera, please select "360 Camera"

Camera connection

NOTE the camera cord is provided only when you buy the backup camera from us.

1. Red wire-connect to **"BACK/REVERSE"** wire (blue color) from main harness.
(This is reverse trigger wire, if you connect incorrectly, the screen will not change when reverse the car)
2. Yellow RCA jack, connect to **"Backacar VIDEO IN"** jack (yellow color) of navigation unit.
(This is the camera video input jack, if you connect incorrectly, the screen will display no signal when reverse the car)
3. Black wire-connect to **NEGATIVE of reverse light** (NOT license plate light).
4. Red wire-connect to **POSITIVE of reverse light** (NOT license plate light).
